

### General Product Information

This product is suitable for indoor dry locations only.  
Do not plug in fixture until after assembly.

### IMPORTANT SAFETY INSTRUCTIONS

This portable luminaire has a polarized plug (one blade is wider than the other) as a feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way.

If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not alter the plug.

### Attaching Legs

- 1 Lay body on flat surface. Use included wrench to loosen the bottom nut, creating a small gap between the nut, lower star hub, and tube.
- 2 Taking one wooden leg at a time, angle the top down and press set screws coming out of the upper star hub into top holes of wooden leg.
- 3 Press foot of wooden leg down onto lower star hub.  
*\*Repeat steps 2 and 3 for each leg.\**

- 4 Use a Phillips head screwdriver to fasten the six provided screws into the bottom of the legs. Screws go through the lower star hub into pre-drilled holes of wooden legs.
- 5 Use wrench to tighten the nut loosened in step 1. The top of all legs should be flush with upper star hub.

### Attaching Shade & Light Bulb

- 6 Now that all legs are securely fastened, you may stand floor lamp up properly on the ground and screw light bulb into socket.
- 7 Insert shade arms into circular hub. The groove in the arm should be facing up and outwards from hub.
- 8 There are three set screws located in the top of shade hub. Tighten these using provided hex key to hold shade support arms in place.
- 9 Attach shade by pressing into grooves of three shade support arms.
- 10 Plug in your new light, turn on and adjust using the dimmer switch on the socket, and enjoy!
