Size	22	31	40
Reflector Finish	B	Y	
Wood Finish	W	D	O
Metal Finish	A	R	
Lamping	27	30	35
	40		
Driver	P1	P2	

Cerno's product development team prioritized the utility of the Allavo vanity, while not ignoring the importance of the aesthetic. Drawing from our experience with product photography, we knew that a large diffuse light source was the key to achieving our goal. The novel design uses indirect lighting that bounces off a curved metal surface. Cerno's signature use of wood is integrated seamlessly into a design we believe harmonizes usefulness and beauty.

The Allavo can be oriented as a vertical sconce or horizontal sconce. When oriented vertically, a right or left orientation can be achieved by flipping the fixture vertically.
