The Volo 36 Pendant design transcends and blurs the lines where art and utility meet. It is composed of familiar shapes of varied sizes and materials. We scrutinized the nuanced proportions to ensure the original form was not compromised by simply scaling up every dimension. The result is a balanced and voluminous light fixture that produces a beautiful quality of light. Similar to the Volo 18 and 24, the 36 use of metal, solid hardwood, and leather is luxurious and also feels natural and warm. The care and craftsmanship that go into making each Cerno fixture is really on display when admiring the Volo.
