

# Cerno Celebrates 10 Years With Outdoor Light Fixtures

09.11.19    Posted by Kelly Beall    Home Furnishings    Main

Cerno, a Southern California-based modern lighting design and manufacturing company, is marking their 10th anniversary this fall. To celebrate, the brand has modified three of their most popular sconces into outdoor light fixtures that are perfect for just about any space. Cerno has powder-coated their Acuo, Calx, and Tersus fixtures to withstand the summer sun and winter cold without compromising the clean, modern lines that define their aesthetic.
